

MINOR IN EVOLUTIONARY STUDIES

(18 credits)

The Evolutionary Studies minor is designed to offer undergraduates the opportunity to develop a deep, broad, and critical understanding of evolutionary principles. The minor includes an Evolutionary Studies Seminar plus selected courses in anthropology, biology, English, economics, geology, and psychology. Students interested in learning more about this minor should contact program director Dr. Thomas Nolen (Interim Dean, School of Science & Engineering, 845-257-3753 or nolent@newpaltz.edu) or founding director Dr. Glenn Geher (Department of Psychology, 845-257-3091 or geherg@newpaltz.edu).
